IFMP ANTI-DOPING ANNUAL REPORT 2019

Author: Varun Goenka, IFMP's Head of Anti-Doping

Published on 5th March 2020

1. Introduction

This report summarises the principal activities and information for IFMP's anti-doping activities in 2020.

2. Overall Testing Statistics

Overall Number of Doping Controls: The figures for IFMP's testing programme are reported in the following table for the corresponding period.

	2019	
In Competition Tests	Blood	-
	Urine	28
TOTAL		28

100% of tests conducted were for the discipline of Texas Hold'em Match Poker.

We are pleased to announce that there were no substantial AAF's for any of our 28 samples collected and tested in 2019.

We had no TUE's applied for in 2019.

IFMP became a signatory to the WADA code in late 2017 and began formally conducting anti-doping tests at our international events in 2019. Starting with the Nations Cup in Dublin where 6 athletes were tested, then was our European Championships in Kyiv where 13 athletes were tested and lastly our Asian Championships in Taiwan where 9 athletes were tested. We conducted educational sessions at each of these events to emphasise the need for clean sport and compliance with WADA's rules and regulations. This was a completely new experience for all our athletes, and received extremely well.

Sport	Test Type	Gender	Nationality	Date of Test	Lab	Sample Type
Match Poker	ICT	M	IND	22/3/2019	LAB - Koln	Urine
Match Poker	ICT	M	IRE	22/3/2019	LAB - Koln	Urine
